NOTICE

OR

PLAN OF OPERATIONS

(For Operations Proposed Under the 43 CFR 3809 Regulations)

Instructions: Circle "Notice" (above) if proposed mining activity within the project area will disturb a total of five (5) acres or less during the calendar year. Circle "Plan of Operations" if disturbance will exceed five acres during the calendar year or if operations are within one of the specially designated areas described in 43 CFR 3809.1-4(b). Complete the form in as much detail as possible. Additional sheets may be used if necessary. Use maps or sketches where appropriate. A review of the 43 CFR 3809 regulations should be conducted prior to completion of this form.

Operator Information:

Name

John D. Adams
et al

Address

130 So. 3rd East Apt #1
Moor, Utah 84532

Telephone

Claim Information (Claim names, circle claim types (Lode, Placer, Mill Site, Tunnel), BLM (all No.))

oro # 17, 20

Location of Proposed Activity (i.e. Township, Range, Section):

Sully Sect # 25 oro # 17 unc 251065

SE 1/4 Sect # 25 oro # 18 unc 251066

SE 1/4 Sect # 26 oro # 20 unc 251068

Describe Existing Disturbance and Structures or Indicate on Maps or Sketches (Mine and Mill facilities, Workings, Tailings, Dump Areas, etc. It may be to your advantage to document existing disturbance with photographs):

Reclaimed areas, having prior disturbance - work done by Gwy Minerals Inc.

Proposed Operations: Describe the entire proposed operation, including all surface disturbing activities (road construction, drilling, trenching, backhoe and bulldozer exploration, mining, waste disposal, etc.) List all mechanized earth-moving equipment to be used during the operation and state if explosives are to be utilized. Describe and furnish a map or sketch, when applicable, showing the locations and size of areas where surface disturbances are proposed, including existing and/or proposed routes of access. Calculate the total acreage proposed for disturbance (1 acre = 43,560 sq. ft.)

Existing water line will be used to transport water from the Spine in Oro # 18 to the holding pond & settling ponds located in Oro # 18. We will then carry on the continuing exploration & evaluation program to determine the most feasible method of extracting the precious metals contained in the gravel. The precious metals content having already been determined. Sufficient work will be done each year to fulfill the assessment work. Requirements that is necessary each year under the federal and State mining laws. Equipment that is contemplated to be used is as follows, Dozer, Backhoe, dump truck, classifiers, grinders, Rotary drill Rig, front end loader, concentrator.

Control plan of operations for are #17, #18, are #20
place claims.

Sizes of pits 1.5 acres pit #1 - 120' X 306'
0.8 acres pit #2 - 100' X 240'
2.5 acres pit #3 - 330' X 330'
1.5 acres Pond - 100' X 200'
Total 4.3 acres
4.4 acres

Period of Operation: From Oct. 20, 1989 To Nov. 20, 1993

Proposed Reclamation: Describe the proposed reclamation procedures and other measures to be taken to prevent unnecessary or undue degradation of the lands, including measures to be taken if a period of nonoperation is anticipated.

See exhibit "A" "Continuous Reclamation Mining
When we reach this point in the evaluation program

I will complete all necessary reclamation of areas disturbed during the course of my operations to the standards described in 43 CFR 3809.1-3(d) and that reasonable measures will be taken to prevent unnecessary or undue degradation of the federal lands during operations.

Signature of Operator:

John D. Adams

Date

Sept. 18, 1989

NOTICE TO OPERATORS:

1. A notice submitted in relation to the 43 CFR 3809 regulations does not require approval from the BLM. However, notification of such activities shall be made at least 15 calendar days before commencing operations. Receipt of a notice will be acknowledged promptly. Approval of a submitted plan of operations is required from the BLM prior to commencing operations. The BLM will promptly acknowledge receipt of a submitted plan and will notify the operator of the status of the plan within 30 days of receipt of the plan.
2. Submittal of a notice or approval of a plan of operations does not constitute certification of ownership to any person named as owner herein, nor does it constitute recognition of the validity of any mining claims named herein.
3. Generally, information that could be considered proprietary is not necessary to fulfill notice or plan of operations requirements. However, information and data submitted and specifically identified by the operator as containing trade secrets or confidential or privileged commercial or financial information should be attached to a separate page and cited in the text of the notice or plan of operations. This information will be filed separately and will not be available for public inspection.
4. Failure of operator to file a notice or a plan of operations, as required by the 43 CFR 3809 regulations, will subject the operator to being served a notice of noncompliance or enjoined from the continuation of such operations by a court order until such time as a notice or plan is filed with the BLM.
5. The completed notice or plan of operations should be filed with the appropriate resource area office. Their addresses are as follows:

enriched Black Sands.

without permanently scarring the land.

Before we mine the land we study it. What we learn helps us to restore it properly.

Subsoil is stockpiled and used to refill mined-out areas.

Topsoil is saved, then spread over refilled areas and seeded with fast-growing grasses.

Only a small portion of the land is mined at any one time. The rest can still be used for ranching and farming.

Continuous Reclamation Mining often leaves the land more productive, easier to farm and ranch, and more supportive of wildlife.
